

## BIOCOCO™

100% natural facial treatment oil

Heals effectively acne, pimples, blemishes naturally, does not clog pores, re-balances oily or dry skin.

Contains lighter virgin coconut oil with anti-microbial properties and detox excessive oil from the skin

“... a vital antioxidant nutrient for healthy skin repair and rejuvenation”

Nature has all the necessary ingredients to treat man's ailments. BIOCOCO's Facial Treatment Oil is produced using its natural, lighter and 100% no-heat virgin coconut oil to treat acne, pimples and blemishes effectively. It is gentle to the skin but yet potent as it contains nature's lauric acid (similar to mother's breast milk properties) which has an anti-microbial effect on the infected skin.

Unlike most oils, it does not clog pores due to its medium-chain molecular structure, which meant it is able to penetrate deep into the skin to cleanse, heal and rejuvenate healthy skin. And it does not cause outbreak of acne but rather detox and regulate the oil balance of the skin (for those with oily or dry skin, or combo). Virgin coconut oil has a high content of Vitamin E Tocopherol which is a vital antioxidant nutrient for healthy skin repair and rejuvenation. Excellent for burns and cuts.

### Important note:

You may experience more oil on your face after application, it is the coconut oil's detox effect of expelling the excessive oil and toxins in your skin cells to the surface, and sometimes resulting in more pimples initially. Persist and continue applying. In a few days (depending on your skin condition), you will notice the oil on your face will lessen and complexion begins to improve. Allow at least 3-4 weeks for the whole healing process to work.

## BIOCOCO™

100% natural facial cleanser oil

For a SMOOTHER, SOFTER and CLEANER FACE

Effectively removes make-up, mascara & dirt naturally, and gently exfoliate dead skin cells; does not clog pores nor cause oily skin

BIOCOCO's Facial Cleanser Oil is formulated using 100% natural oils that are gentle to the skin but yet effective in removing oxidized sebum, makeup, mascara, environmental dirt and dead skin cells.

Unlike most oils, it does not clog pores due to its medium-chain molecular structure, which meant it is able to penetrate deep into the skin to cleanse, repair and protect. And it does not cause outbreak of acne but rather detox and regulate the oil balance of the skin.

Coconut oil is traditionally used as a natural soap-making ingredient for the body, and it acts as a moisturiser due to its antioxidant Vitamin E. In addition, it is an excellent natural exfoliant that help shed ugly dead skin cells.

### Ingredient

100% natural coconut MCT oil, lavender essential oil (free from alcohol, artificial fragrance, artificial colouring, mineral oil, additives or preservatives).

### Directions

- Pour small amount of cleanser oil on the fingers, and roll it gently in a circular movement all over face and neck.
- Add more cleanser if skin feels sticky.
- Rinse thoroughly with water.
- Use a gentle soap (such as BIOCOCO's 100% natural face soap) to remove any oil residue if necessary.
- Pat face dry with a soft facial towel  
- do not scrub your face or rub dry, it is too harsh.

## BIOCOCO™

100% natural hair treatment oil

For Healthier Scalp & Stronger Hair

Contains super antioxidant palm Tocotrienol Vitamin E oil to boost blood circulation on scalp, penetrate & nourish to strengthen hair

The scalp is the most absorbent part of the body, and it is therefore vital that the products used do not contain toxic chemicals. Colouring, perming, straightening, chemicals in shampoo, environmental pollution and air-conditioning; all generate free radicals that contribute to hair damage and an itchy and flaky scalp (this should not be mistaken for dandruff which is usually accompanied by oily scalp).

BIOCOCO's Hair Treatment Oil contains super antioxidant Tocotrienol Vitamin E which studies have shown to be potent to protect and counter the damage caused by free radicals. BIOCOCO's Hair Treatment Oil is formulated with 100% plant ingredients. It includes the unique virgin coconut oil's medium chain triglycerides that can penetrate into the hair shaft and carries nourishment to prevent protein (and hair) loss, thus a stronger hair regime. It is also well known for its deep moisturising and repair properties, such as re-balancing oil on the scalp to prevent dandruff.

**ALL BIOCOCO PRODUCTS ARE FREE FROM ALCOHOL, ARTIFICIAL FRAGRANCE, MINERAL OIL. ADDITIVES OR PRESERVATIVES**
